Education

Sep 2015 - June 2017	Associates in Computer Science Transfer - Skagit Valley College, Mount Vernon, Washington
Jan 2018 - Present	Bachelors of Science in Software Engineering - Arizona State University, Tempe, Arizona

Skills

Programming Languages	Java, C++, Python, JavaScript
Web Technologies	Node.js, React.js, Socket.io, CSS3, Wordpress
Other	Git, Unity, SQL

Experience

Sea-Tech 4-H Nov 2014 - Aug 2017	<p>I participated in a club where we developed and built submersible remotely operated vehicles or ROVs. We were in complete control of designing and building the machine. I had many roles such as:</p> <ul style="list-style-type: none">- Structural Design- Controls Design using various Arduino Micro-controller setups- Wiring and Electronics
Sea-Tech 4-H Leader Nov 2017 - Aug 2018	<p>I acted as leader to the college level Team under another leader who works professionally as an engineer for Boeing. I offered guidance and help wherever I could, usually pertaining to software and electronics. I taught students about embedded systems and wiring.</p>
Starbucks Coffee May 2017 - Present	<p>I'm currently working part time as a shift supervisor at Starbucks. While my day to day work doesn't require anything technical, it has greatly improved my time management and interpersonal skills.</p>
